

Waterjet Group

OneClean

OneClean hydrofilter

- ▶ Separation of the used abrasive from the process water
- ▶ Weighing system to indicate the filling level of the BigBag display - optional
- ▶ Can be emptied while the plant is running
- ▶ Integrated pressure bag filter module
- ▶ Process visualization system - optional
- ▶ Flocculant for separation of fines can be integrated
- ▶ Level control of the cutting basin can be integrated

OneClean water treatment

- ▶ Economical dosage
- ▶ Works only when water is used
- ▶ Efficient and cost effective with biodegradable additives

OneClean water circulation system

- ▶ Liter capacity 800 l/h
- ▶ Pollution degree inlet 15 ml/l settleable substances (corresponds to limit value for discharge)
- ▶ Degree of purification 1µm
- ▶ Controlled via central SPS

OneClean flocculator

- ▶ Efficient separation of heavy metals
- ▶ Modules for glass, plaster or plastic possible
- ▶ Ideally combined with OneClean WKS
